Members present:

Prison Reading Groups (PRG) needs to know how many people attend each meeting, and how many times each individual attends. This information helps us demonstrate our reach to funders. Please tell us who was at the session, using first names or initials, real or fictitious. In either case please use the names/initials consistently in all feedback and make sure you do not use the same name/initials for different members.

How did you recruit people for the book group?

How many people took part?

What challenges or problems did you face in getting the group going?

Do you have any suggestions for other prisons who are interested in starting a remote group?
